

## >> Inside PaperChem

PaperChem is a database of abstracted and indexed literature created specifically for research in the Pulp and Paper industry. With coverage of more than 35 years of the leading journals, influential conference papers, and critical technical reports, PaperChem gives researchers access to the information they need to succeed. In addition, new records are added weekly to ensure that researchers can stay up-to-date with the latest developments in the field.

### PaperChem subject coverage includes:

- Corrosion
- Economics and Research
- Engineering and Process Control
- Fiber Webs and Nonwovens
- Films, Foils and Laminates
- Finishing and Converting
- Forestry and Pulpwood
- Gluing, Labeling and Sealing
- Machinery Equipment and Maintenance
- Mill Construction and Operation
- Packaging
- Pulp, Paper and Board
- Silvichemicals and Residues
- Spent Liquors and Pollution Control
- Tissues Culture

### Why access PaperChem on Engineering Village?

- **Save valuable time:** Easy-to-use search functionality
- **Gain at-a-glance knowledge:** Faceted results display trends and quickly narrow searches
- **Stay up-to-date:** Customizable email or RSS alerts
- **Streamline research:** Personalization options allow collaboration and results management

### PaperChem Quick Facts

- Nearly 600,000 abstract records
- Dates from 1967-present
- Over 15,000 records added annually
